**Calmoseptine Inc.**

1995 Western Avenue  
Suite 100

Huntington Beach, Ca 92649

**To whom it may concern:**

For medical reasons my colon was removed and a restorative ileoanal reservoir was put in place. My surgeon's name is Steve [redacted] and he performed the surgery on December 12, 1994 at Swedish Hospital.

I am recovering nicely, however, at times still suffer from diarrhea. When this happens it is necessary to protect my skin. I have found your product, Calmoseptine, to be the best on the market. (Believe me, I have tried everything offered in the Seattle area).

Since my recovery I have returned to a very busy lifestyle. That means in and out of professional meetings all day with very little time to think about preparation or "supplies". I find it very awkward being forced to carry a tube of Calmoseptine with me. It would be much more convenient to simply have a couple of sample packets in my shirt breast pocket or suit. I don't always need the protection but would like to have it conveniently available when I do need it.

I would like to suggest that you offer the convenient packets for sale.

**Sincerely yours,**

**David A. [redacted]**  
**Principal**
