COLON AND RECTAL SURGERY

7/2/96

Dear Mr. Dixon

(pardon the  
handwritten note... Secretary is  
bogged down & I wanted to  
get this in the mail)

Dr. Baker is very happy with  
the results of the calmoseptine  
samples. He does Ueo-anal prch  
constructions & this is wonderful  
for their post op skin irritation.  
Where we are equally as impressed  
is with perianal skin problems  
as pts are undergoing radiation  
to the area. This has been of  
tremendous relief. I have given  
this message to our radiation oncology  
dept (423) 632-5981 Gail is the nurse  
I spoke to & have given them  
samples. Please send us more  
samples & let me know where →
