Dear Calmoseptine Representatives,

About a year and a half ago I developed a painful anal fissure. My proctologist gave me some samples of Calmoseptine, and it worked very well. Unfortunately, I ran out of samples and suffered for several months. When I discovered that Calmoseptine is not a prescription drug, I had my local pharmacist order me a tube immediately. I am now using it daily, and it has cured me once again. Your product is truly amazing. I am not exaggerating when I say it has changed my life. I had resigned myself to a life of discomfort. My fissure actually limited my daily activities and prevented me from leading the active life to which I was accustomed. Running, badminton, tennis, and other sports were simply too painful to continue. My fissure had sidelined me. Now, I am as good as new thanks to Calmoseptine. Your product not only works, it works FAST! Thank you for making a terrific product and for giving me my life back!

Sincerely,

Joseph
