

Dear Wendy: July 30, 1994

This letter is in regards to your product CalmoSeptine ointment.

I WAS ADMITTED to OHIO State University Hospital to HAVE A KIDNEY/PANCREAS Transplant. This is when I had the opportunity to try your product for the first time.

Your ointment was very helpful AND soothing instantly, it helped to clear up any tenderness AND bed pressure sores that developed while I WAS recovering for the duration of my 2 week period as a patient in the hospital.

Once again thanks so much for making such a product as this one

Sincerely,
Dorothy
